CORE COMPETENCIES

Project Execution
Software Development Lifecycle
Requirement Gathering
Reporting & Documentation
Agile Methodologies & SCRUM
Sprint Planning
Gap Analysis
Client & Stakeholder Engagement
Cross-functional Coordination
Team Management

IT SKILLS

Programming Languages: Java, J2EE,
Object-Oriented Programming
Front-End Development: HTML, CSS,
JavaScript, React
Back-End Development: Hibernate,
Spring Boot, Spring MVC, RESTful
APIs, Spring Security, Microservices
Architecture, JWT, JUnit
Database Technologies: MySQL,
Oracle
Cloud Services: AWS (Amazon Web
Services)
Version Control: GitHub, Bitbucket,
Docker
Tools: Jira, Confluence
IDE's: Eclipse, STS4, IntelliJ Idea, VS
Code

CERTIFICATIONS

Full Stack Java Enterprises
Certification from ABC Upskill and
Training., SOLID Principles and Low-
Level Design Certificate from Scaler.
React from Scaler.

EDUCATION

Bachelor of Engineering
Visvesvaraya Technological
University
Rajeev Institute of Technology
Hassan
2021

PROFILE SUMMARY

- Project Engineer with a strong focus on **Java Full Stack Development**, specializing in **end-to-end development of dynamic web applications and with over 2 years** of industry experience
- Sound knowledge of SDLC** with excellence in gathering and understanding requirements of clients &, followed by translation into functional specifications as well as provisioning of suitable solutions
- Fast-forward Project Acumen** with exposure in swiftly completing projects with competent cross-functional skills and ensuring on time deliverables within pre-set parameters; followed **Agile Practices**
- Displayed mastery of **front-end and back-end technologies, utilizing Java, Spring Boot, and React** frameworks to deliver exceptional web applications.
- Skilled in **designing RESTful APIs**, implementing top-tier security protocols, and optimizing application performance.
- Participated in **daily stand-up meetings and sprint planning**
- Efficient organizer, motivator and team player** with recognized proficiency in spearheading business to accomplish corporate plans and goals successfully

WORK EXPERIENCE

July'22-July 23 | Randstad → Merck - Project Engineer (Java Full Stack Developer)

Role:

- Collaborating with the Senior Stakeholders, testing and senior developers while keeping them informed of progress and issues in order to manage expectations on all requirements and deliverables.
- Actively participating in review meetings with the team to discuss the progress of projects as well as for identifying gaps and suggesting effective solutions for the same.
- Leading a team of 8 members in the development of Java-based applications, ensuring timely delivery and adherence to project objectives.
- Successfully gathering requirements from clients and stakeholders, ensuring alignment with project goals and objectives.
- Implementing Agile methodologies, participating in daily stand-up meetings, sprint planning, and retrospectives.
- Developing and maintaining responsive web applications using Java, Spring Boot, MySQL and Jasper Report technologies, ensuring optimal user experiences and performance.

Highlights:

- Engineered and deployed RESTful APIs, optimizing front-end and back-end communication and improving application efficiency by 40%.
- Reduced latency by 50 milliseconds, enhancing overall application performance.

July'21-June'22 | Startup-Kt – Project Engineer (Java Full Stack)

Role:

- Collaborated with senior developers to implement innovative UI/UX enhancements, resulting in increased user engagement and conversion rates.
- Assisted in the development and integration of RESTful APIs using Java and Spring Boot.
- Implemented front-end components and interactive features using HTML, CSS and JavaScript frameworks.
- Engaged in technical solution discussions, providing valuable insights and contributing to process improvement.
